This diagram illustrates the exploded view of a window frame assembly. The components are labeled with numbers 1 through 51, indicating their relative positions and assembly sequence. Key parts include the main frame (1), sash (3), and various hardware components like hinges (22, 23), rollers (17.1, 17.2), and fasteners (11, 12, 18, 19, 21, 25). The diagram also shows the installation of the sash into the frame, including the use of a sash cord (20) and a sash weight (28). The exploded view shows the sash being lowered into the frame, with the rollers (17.1, 17.2) and hinges (22, 23) being installed first. The sash cord (20) is then attached to the sash weight (28) and the sash. The final assembly is shown with the sash in the frame, secured by the fasteners (11, 12, 18, 19, 21, 25).
